DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 14,16-19 and 22-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are confusing. In the claims, you use language such as, "associable with" and "associated with", this is incorrect claim language. You have not positively claimed the limitations by using this language.

It is unclear, in claim 1, as what is the main longitudinal direction. This has not been defined. It is also unclear as to how a longitudinal direction can define a working surface. In claim 1, you claim that in the wringing or retracted condition the longitudinal directions of the two arms are angularly spaced from the working surface. This is also confusing. The longitudinal direction remains constant, and when they are folded up, they are no longer in the longitudinal direction.

It is unclear as to what is the working surface. Is it the floor being cleaned? If it is, then how are the arms arranged on the working surface when the arms contact the cleaning means?

Are you claiming the containment bucket in combination with the mop? If so, then the bucket needs to be positively claimed.

Claim 19 recites the limitation "said fixed part" in lines 2-3. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

Claims 14,16-19 and 22-26 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

Applicant's arguments with respect to claims 14,16-19 and 22-26 have been considered but are moot in view of the new ground(s) of rejection.
